Hi Ryan. Hoping you are well. I wanted to express my appreciation for the actions of your Community Engagement Officer, Brian Attama, at the scene of a recent critical medical emergency on West Sierra Ave. On Monday, 4/14/25 at 11:09am, a resident of the City was severely injured when his vehicle accidentally rolled over him. Fire and Medics were dispatched to the scene. Hearing the call, Brian responded to the area and played a crucial role getting the patient stabilized, loaded and transported to an awaiting helicopter, for flight to the regional trauma center.

With this serious of a traumatic incident, seconds count. I appreciate the teamwork everyone shows in helping to save a life. Please accept my thanks and gratitude for the partnership the City, Fire and Hospital District have together. Being able to utilize Brian, while on duty, absolutely made a positive difference.

Thanks again for a job well done by Brian, supported by an outstanding City management.

Respectfully,
Jack
