

MEETING DATE: JUNE 4, 2025

FROM: Rich McLaughlin

RE: Treasurer's Report

BACKGROUND:

Monthly financials help maintain the accuracy of our financial record, provide details on the financial health of the District including performance against budget, and support informed decision making by the board. This particular report represents 11 months of performance from July 1, 2024, through 28 May 2025, providing and excellent perspective of our first year of operations. Given the uncertainties we encountered during the design and approval of this first year's budget for the new District, I am happy to report that at the 11 month point we remain operating with revenues above budget year to date (YTD), and expenses under budget YTD. We are learning a great deal about the operations of the department and the complexity of performing day-to-day tasks while at the same time conducting extensive Office of Emergency Services (OES) operations, updating our physical plant, and conducting professional training, all while bringing together 5 separate fire departments into a cohesive force. This first year has been a success by all measures of performance.

ISSUES:

As we move forward there are three issues we will be closely monitoring.

1. The County has fallen slightly behind their tax apportionment payment schedule. We need to see the second annual payment to validate the first payment and forecast tax revenues for next year.

- 2. The California State Board of Equalization (BOE) has yet to validate/ certify our annexation of EPRFD. This failure complicates our receiving property tax sharing from what was the EPRFD service area. We will receive the dollars, but the County will continue to process this payment through their bureaucratic system until the BOE action is complete.
- 3. We continue to struggle slightly with cleaning up our QuickBooks accounts after going through three bookkeepers over our first 7 months of operations. Rose is doing a yeoman's job of searching out and fixing errors to ensure the accuracy of the books.

RECOMMENDATION:

Approve the June financials going into our last month of Fiscal Year operations. These financials set the stage for approval of the FY25/26 Preliminary Budget.

FISCAL IMPACT:

While we unfortunately have yet to receive the County's second tax apportionment payment for FY 24/25, the first payment representing 50% of total expected tax revenues provides a solid estimate of the forthcoming apportionment. Rose and I will continue to track emerging tax revenues through the remainder of the FY to make any adjustments needed to the proposed budget for the next fiscal year.

2025 Performance Notes through May 25 (FY Month 11):

- Revenue we are currently over budget YTD by \$353k. That can largely be explained by the \$184k of carry over unprogrammed Special Assessments from BFD, combine with the high level of OES Reimbursements (\$273k vs \$137 budgeted). This represents 45% over budget in revenue. If we zero out the OES overage, we are still 10% over budget in revenue.
- 2. **Tax Revenue** we had hoped to receive our second tax apportionment payment from the county by this time however we are still waiting. Projected amounts for this next payment are:

BPFPD Property Tax - \$121,872 BPFPD Parcel Tax - \$173,000 BPFPD Other Taxes - \$ 1,0101 EPRFPD Taxes - \$ 36,836 Total Tax Revenue - \$332,471

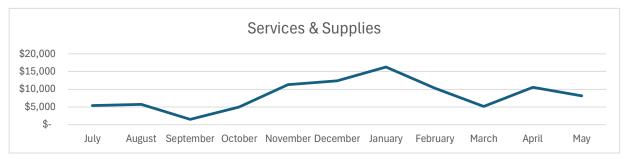

We will require this next round of tax payments to see us through to next January when we will see our first round of 25/26 tax apportionment payments.

- 3. **Day-to-Day Operational Expenses** currently running \$223k under budget (33%). This is a little misleading in that our expenses the first three months were lower than our current monthly average as we spooled up operations. However, if adjusted for that first quarter, we are still approximately 25% under budget. Noteworthy expenses:
 - a. Wages are running significantly under budget but again, this is mostly attributable to our spool up to full operations during the first six months of operations.
 - b. Compensation expense is running under budget for both regular and OES wages. We have some cyphering to do on the next budget.
 - c. Other Employee Expenses are over budget YTD by \$2.5k primarily due to personnel clothing and travel. Travel costs were partly due to board members attending the CSDA conference last year.
 - d. Services and Supplies are running significantly under budget due to the lack of an insurance payment in this year. A "True Up" charge at the end of the year will likely eat away most if not all of this underage.
 - e. Administration charges are significantly over budget primarily due to utility costs.
 - f. Vehicle costs are significantly over budget due to fuel costs.

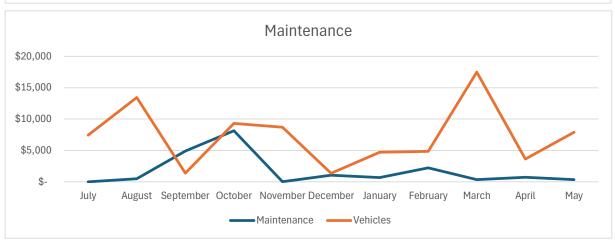

- g. Capital outlays are over budge due to purchase of a Tender and Type 1 fire engine.
- h. All but four OES invoices have been paid. Revenue to date \$104k, expected total OES revenue \$191k.
