

General Manager's Report CPUD

8-26-2025

Meter Reader Applications: At least 15 applications were turned in to Allan. We are preparing to start the initial interview process.

Airport Hanger: Penn fire does not want to rent that space. Bob, Allan, and I are in the process of deciding what is what inside and out of the hanger. My goal is to clean it up and rent it out. I do not know of a reason why we can't rent it for airplane storage.

Chester CPUD ambulance: We are putting it for bid on Gov deals through CSDA. It is free to sell it there and is nationwide. We are starting the bid at 30k. We don't have to do anything in the process. It's really easy and cost us nothing.

Wastewater management training: The class has been postponed to an undetermined date.

CSDA Training: Rick Wood is still planning on coming in October to do a small training here with us and I'm working on getting other districts on Board so Rick can visit them, as well. (That's what it takes to get him here; multiple districts to make his trip worth it)

SCADA: I'm working on figuring out what we have to do to have our SCADA system operate our wells only at night. I'm also looking into what rate plan we are currently on. These two things could save us thousands!

Board Vacancies: The County supervisor can appoint 1 person to join the Board. When the three vacancies occur on the Board, the Board has the opportunity to appoint (or reappoint) 2 more people.

4/5 Policy votes: We do have a policy that states we need 4/5 vote to approve them . It is an internal policy. We will discuss it in the future to weight the pros and cons of requiring a 4/5 vote.

"Policy 1010: Adoption of a new policy or amendment of an existing policy shall be accomplished at a regular meeting of the Board of Directors and shall require a 4/5 affirmative vote of the entire Board of Directors."
