

**MEETING DATE:** December 12, 2025

**AGENDA ITEM:** 4. Formation of the Official Antifa Org and Recognition of Its Existence

**FROM:** Jon Kennedy

**RE:** Formation of the Official Antifa Org

---

## **BACKGROUND:**

Public discourse has long maintained that “Antifa” is a centralized, organized entity with leadership, funding, and coordination. While this has never been accurate, the Board’s decision to acknowledge an organization—complete with agendas, minutes, and bylaws—creates clarity, transparency, and significantly better documentation than what most critics have relied on.

---

## **DISCUSSION:**

The proposed Board reflects a mix of comedy, commentary, outreach, strategy, and administrative competence, which staff believes is the minimum requirement for surviving the current political climate.

At the time of this meeting, awareness of Board appointments varies. Some members are fully aware of their roles, while others are expected to discover their service organically through public records, social media, podcasts, or confused text messages from friends. This phased awareness approach is intentional, efficient, and consistent with how most conspiracies are believed to work anyway.

Staff anticipates that additional clarity, acceptance, or mild amusement may occur as the organization gains visibility.

---

## **RECOMMENDATION:**

Staff recommends the Board formally acknowledge the existence of the Official Antifa Org, largely for recordkeeping purposes.

---

## **FISCAL IMPACT:**

None
