

NEW CRITICAL ACCESS HOSPITAL

MEDICAL EQUIPMENT PLANNING—EARLY PROCUREMENT

January 25, 2024

✚ EMERGENCY DEPARTMENT

- Two transport stretchers (“gurneys”)
- Cost = \$25,000
- Urgency – less than 60 days (See attached justification)
- **Status: We are requesting additional information from Stryker related to optional vs. non-optional components.**

✚ IMAGING

- Ultrasound system – Canon Aplio-1700-V6.5.100
- Cost = \$95,550.00
- Urgency – less than one year (Justification provided previously)
- **Status: We plan to build our ultrasound program.** Our US tech has the capacity to add more hours. The plan is to provide additional education to providers related to current studies available to reduce the need to refer elsewhere. There is no question that this new unit is required for current operations.

✚ LABORATORY

- Lab Analyzer – “Cellavision”
- Cost = \$37,087.00
- Urgency – Less than six months (See attached justification)
- **Status: To be requested on 2024 Auxiliary Wish List.**
- Lab Analyzer – Microscan System with LabPro Software and AutoScan IV
- Cost = \$24,900.00
- Urgency – Less than 60 days optimum (See attached justification)
- **Status: Purchase order has been submitted to Beckman; unit is approximately two months out.**

✚ SURGICAL SERVICES

- Scope/Video System – Stryker Endoscopy with cart
- Cost = \$163,935.62
- Urgency – Less than six months (See attached justification)
- **Status: Considering bringing loaner cart in for 30-60 days.** Cost of permanent unit will increase 3% February 1st (~\$5,000).
