

**MEETING DATE:** February 11, 2025

**AGENDA ITEM:** 12. Public Works Report

**FROM:** Jory Hadden

**RE:** Wilson Park Vandalism

---

## **EXECUTIVE SUMMARY:**

The new solar lighting poles (3) were unbolted and 2 of the 3 were pushed over. Also 2 chains were cut to gain access. One chain to enter the skate park area and the other at the entrance of the baseball field. the chains were replaced and the parks were secured. The light poles were put back in place, bolted down and the bolts were modified to, hopefully, prevent any further tampering.

---

## **RECOMMENDATION:**

It is my opinion that this is taking place due to continued closure of the park area and we might consider taking down the fencing. It is my understanding that we need signage dictating city ordinances to open the skate park.

---

## **FISCAL IMPACT:**

3 hours of labor.
